DexTech Medical AB is a Swedish research company that, based on its technology platform, has developed four drug candidates that are protected by patents. The main candidate is OsteoDex for the treatment of castration-resistant prostate cancer (CRPC) with skeletal metastases. A successful Phase II clinical trial has been conducted with OsteoDex where the result shows high tolerability with mild side effects as well as treatment effect on patients who fail on existing drugs. DexTech's goal is to license the respective drug candidate by the latest phase II study. DexTech Medical AB is listed on Spotlight Stock Market.
