***DexTech Medical AB** is a Swedish research company that, based on its technology platform, has developed four drug candidates that are protected by patents. The main candidate is OsteoDex for the treatment of castration-resistant prostate cancer (CRPC) with skeletal metastases. A successful clinical phase II study has been conducted with OsteoDex where the result shows high tolerability with mild side effects and treatment effect on patients who fail on existing drugs. DexTech's goal is to outlicense each drug candidate after completing the phase II study. DexTech Medical AB is listed on Spotlight Stock Market.*
